Significance/ Purpose of This Program

ART MORA is a contemporary art gallery established in Chelsea, New York in 2011. We focus on providing a variety of opportunities for emerging new artists, and build a strong community through hosting public events. In addition, we help the public to approach popular art comfortably and encourage their interest in art through holding multiple lecture programs. We also work hard to become a center for communications among emerging artists, curators, and the public.
